

CHIRAG P L

Bengaluru, IN | Ph: +91 7975869920 | chiraglakshman2004@gmail.com | <http://www.linkedin.com/in/chirag-p-l>

Objective

Looking for an opportunity as a Software Developer, QA Engineer, or Business Analyst at Vtiger System India Pvt Ltd. I am eager to apply my technical expertise and problem-solving abilities to learn, collaborate with teams, and contribute to the company's growth.

Skills

- **Languages:** Basics of C programming, Java
- **Web Technologies:** HTML, CSS, JavaScript.
- **Database and Query Language:** SQL
- **Soft Skills:** Team work, Time Management, Hardworking and Optimistic.

Project Work

AI – Mock Interview

An AI-powered mock interview app built with Next.js and React. It generates interview questions using Gemini AI and gives real-time feedback. User authentication is handled by Clerk.

Tools Used: Next.js, React, Gemini AI, Clerk, Drizzle ORM, PostgreSQL, Tailwind CSS, Vercel.

Pharmacy management System

The Pharmacy Management System is a DBMS-based project that manages medicine stock, sales, and customer data. It ensures efficient handling of inventory, billing, and prescription records.

Tools Used: JS, CSS bootstrap, DBMS, Zamp

Language detection using ML

Implemented a Machine Learning-based Language Detection model using Python in Google Collab, libraries like scikit-learn and pandas. Processed and trained on multilingual datasets to automatically identify the language of given text inputs.

Education

- **Rajarajeshwari College of Engineering**, Bengaluru | BE in Information Science and Engineering | **CGPA: 8/10**
- **ASC Independent PU College**, Bengaluru | Science in PCMB | **Percentage: 77.44**
- **S J R Primary and High School** | Karnataka State Board | **Percentage: 78**

Activities

- Volunteered at a government-organized job fair, supporting event logistics, guiding participants, and assisting with employer connections to enhance the job-seeking experience that enhanced my communication.
- Successfully completed a Power BI workshop and earned certification, gaining expertise in advanced data visualization, interactive reporting, and dynamic dashboard creation.
- Regular fitness training enthusiast, committed to building physical strength and mental resilience. Demonstrates consistency, discipline, and goal-oriented mindset.

Certificates

- Power BI (Workshop organised by RRCE)
- JavaScript (Udemy)
